LANDTEC System Gas Analyzer Manager Software

INSTALL INSTRUCTIONS

For use with the GEM2000/GEM5000/BIOGAS5000/GA5000

Please follow the steps outlined below to install OR upgrade the LSGAM software on your computer:

(Please Note: ALL FILES REQUIRED FOR THIS INSTALL ARE LOCATED WITHIN THE "LSGAM INSTALL FILES" FOLDER)

1. **Install USB Drivers:**
   - Double-Click "usb.exe" to run the file. Follow the on-screen prompts to install the USB drivers needed for connecting your instrument to your computer.

2. **Uninstall any previous JAVA installations on your computer:**
   - Double-Click "JavaUninstallTool.exe" to run the file. Follow the on-screen prompts to remove any previous versions of JAVA found on your computer.

3. **Install JAVA:**
   - Double-Click "jre-8u351-windows-i586.exe" to run the file. Follow the on-screen prompts to install the 32-Bit version of JAVA on your computer.
   - (Please Note: LSGAM will only operate using the 32-bit version of JAVA)

4. **Copy DLL File to your JAVA Folder:**
   - Right-Click on "rxtxserial.dll" and select "Copy"
   - Browse to the JAVA BIN folder on your computer found here "C:\Program Files (x86)\Java\jre1.8.0_331\bin"
   - Right-Click and "PASTE" the file into the BIN folder

5. **Launch LSGAM / Create Desktop Shortcut:**
   - Double-Click the "lsgam60.jnlp" file to launch LSGAM. This will also create a desktop shortcut to the program for future use.
